How your Final degree is calculated
Honours Degree Criteria

An Honours Degree may be awarded on successful completion of 360 credits

Classification 1

The Exam Board will award an Honours Classification, selecting the strongest profile from either:

The letter grades achieved for all final stage units, weighted according to the credit-rating of each unit.

OR

Classification 2

A calculation based on: The letter grades achieved for all final stage units and the letter grades for up to the best 100 credits of the student's second year, weighted according to the credit-rating of each unit.

The calculation is a 70/30 ratio, with the final year grades carrying the most weight.
